SUMMARY

Cybersecurity-focused IT professional with 12+ months of industry experience in IT infrastructure, network security, and SOC operations, having completed PGCP-ITISS at C-DAC IACSD, Pune. Builds DevSecOps CI/CD pipelines with real deployed tooling — secret detection, SAST, container and DAST scanning, policy-as-code gates, and AI-assisted triage — from architecture to live cloud deployment. Hands-on with SIEM-based security monitoring, incident response, and vulnerability management through independent SOC lab projects. Trained in Cisco's Ethical Hacker curriculum. Targeting SOC Analyst, Cybersecurity Analyst, or DevSecOps Engineer roles.

TECHNICAL SKILLS

Cybersecurity: SOC Operations, Security Monitoring, Incident Response, Threat Detection, Log Analysis, Vulnerability Management, Network Security, Container Security, Secret Detection, Security Automation, DevSecOps

Security Tools: Wazuh SIEM, Coraza WAF (OWASP CRS), Suricata IDS/IPS, OWASP ZAP (DAST), Gitleaks (Secret Detection), Semgrep (SAST), Trivy, iptables

DevSecOps & Automation: Jenkins, GitHub Actions, CI/CD, Docker, Policy-as-Code, SOAR scripting (Python), Git/GitHub

Programming & Stack: Python, FastAPI, Bash scripting, React, SQL (MySQL, PostgreSQL)

Networking & Infrastructure: TCP/IP, DNS, HTTP/HTTPS, Firewalls, Network Segmentation, Linux (Debian/Ubuntu) administration, OS Patch Management, Access Control

Cloud: Google Cloud / Cloud Run, Caddy (Reverse Proxy)

WORK EXPERIENCE

IT Executive

Feb 2025 – Feb 2026

Sonsolite Infra and Power Solutions Pvt. Ltd. • Ranchi, Jharkhand

- Administered **access provisioning/de-provisioning** and network connectivity; hardened Wi-Fi security and network segmentation for 30+ users.
- Managed **Digital Signature Certificates (DSC)** and e-tendering portal access (GeM/CPPP/state DISCOM portals) for authorized signatories during bid submissions.
- Enforced **OS patch management** and least-privilege access controls; designed a security-aligned data backup strategy supporting business continuity.
- Delivered **Tier-1/2 incident triage and resolution** for software and connectivity issues across internal staff.

PROJECTS

SecureFlow – Automated DevSecOps Pipeline with AI Security Analysis [GitHub](#) | [Live Demo](#)

- Built a Jenkins / GitHub Actions CI/CD pipeline integrating **Gitleaks, Semgrep, Trivy, and OWASP ZAP** for secret, SAST, container, and runtime scanning on every commit, with a policy engine blocking deploys past severity thresholds.
- Shipped a **React dashboard** streaming live scan results over WebSockets (FastAPI + PostgreSQL) with an AI layer suggesting root-cause fixes; deployed on **GCP Cloud Run** and validated across 150+ test pipeline executions.

SentryVault – Enterprise-Style Banking Security Lab & SOC Operations Environment [GitHub](#)

- Architected a production-style security lab across a **segmented multi-VM DMZ** with Caddy reverse proxy, Coraza WAF, and Suricata NIDS enforcing zero-trust perimeter controls.
- Deployed **Wazuh SIEM** for real-time log ingestion, FIM, and alert correlation; implemented a Python SOAR script that auto-quarantines offending IPs via iptables on High/Critical alerts.

Red Flag Detector – AI-Assisted Phishing & Threat Analysis Tool [GitHub](#) | [Live Demo](#)

- Developed a **two-layer threat detection tool** covering phishing, SQLi, XSS, and social engineering across emails, URLs, and code snippets — rule-based engine plus an AI layer (FastAPI + Groq) for subtler, well-disguised attempts.
- Every finding delivers a **risk score with plain-language reasoning**, enabling analyst-level triage without security expertise.

EDUCATION & CERTIFICATIONS

PGCP-ITISS – IT Infrastructure, Systems & Security

Feb 2026 – Aug 2026 | Completed

C-DAC IACSD, Pune, Maharashtra • 80%

Master of Computer Applications (MCA)

2022 – 2024

Marwari College, Ranchi University • 73.25% — First Division

Bachelor of Computer Applications (BCA)

2019 – 2022

Doranda College, Ranchi University • 78.9% — First Division

Certifications: Ethical Hacker (Cisco) · Introduction to Cybersecurity (Cisco) · Cybersecurity Fundamentals (IBM SkillsBuild) · AI Fundamentals (IBM SkillsBuild) · Cybersecurity Job Simulation (Mastercard/Forage)

LEADERSHIP & EXTRACURRICULAR

- **NSS Team Leader:** Led a 500+ tree plantation drive ("Team Green") and organised a "Bal Siksha Camp" at Madhukam Basti, Ranchi — mentoring underprivileged children.
